

Supporting the team around the child

Our adoption and fostering Train the Trainer events and materials will enable evidence-informed practice with foster carers and adopters.

Two Train the Trainer places for every local authority funded by the Department for Education. Nine regional two-day events will equip participants with research-rich content and training materials to cascade learning to practitioners in this field.

The content focus is informed by The College of Social Work's Curriculum framework for CPD in this area of practice.

Venue and City	Part 1	Part 2
